

Have your say. Help shape health and wellbeing services for the Llynfi Valley

Dear parents, carers and guardians

What health and wellbeing services would make a difference to your family?

Cwm Taf Morgannwg University Health Board wants to hear from families across Maesteg and the Llynfi Valley as it develops plans for a proposed new, state-of-the-art Health and Wellbeing Centre at Oakwood Drive, near Ewenny Road, Maesteg, subject to Welsh Government funding approval.

What could the new centre offer?

Proposed services include:

- GP service – Bron-y-Garn Surgery.
- Urgent Care Centre – treatment for minor injuries and illnesses, including X-ray facilities.
- Outpatient Department – a wider range of specialist clinics and appointments.
- Community healthcare services – including wound care and lymphoedema services.
- Eye services (ophthalmology) – specialist eye care.
- Hearing services (audiology) – assessment and hearing support.
- Community mental health services – support for people experiencing mental health difficulties.
- Integrated adult health and local authority services – teams working together to support adults.
- Integrated children's and family services – teams supporting children, young people and families.
- Third-sector health and wellbeing services – community space for organisations to provide support and advice

Why Oakwood Drive, near Ewenny Road?

On 21 May 2026, the Health Board approved Oakwood Drive, near Ewenny Road, as its preferred site. Redeveloping the existing Maesteg Community Hospital to accommodate the wider range of services was

found to cost substantially more than the available project budget, with challenges relating to the age, condition and layout of the buildings.

The Health Board is also looking at options for how the existing hospital site could benefit the community in the future. No final decisions have been made about its future use.

Please take five minutes to have your say!

As parents and carers, you know what matters to your family. Our short survey asks for your views on:

- Which health and wellbeing services matter most to your family.
- What support you would like closer to home.
- How the existing hospital site could benefit the community in the future.

Fill out the short survey here:

English: https://survey.orlo.app/7efb47df-98b3-490b-8221-1e3192c80255
Welsh: https://survey.orlo.app/7efb47df-98b3-490b-8221-1e3192c80255

Your views will help shape services for local families, today and for future. You don't need any specialist knowledge - we simply want to hear what matters to you.
